

# set for summer

Designers Richie and Chontelle whip a stylish outdoor pavillion in no time flat

STORY RICHIE STEVENS & CHONTELLE SAMIOS

Need some shelter from the sun this summer, well heres a nifty idea to create your own designer outdoor pavillion in just minutes. A trip to Bunnings is all it took to get a large market umbrellaa, 2 directors chairs, and some sheer white curtains. The idea is to 'enclose' the large umbrella to give the pavillion effect. A single piece of wire or twine needs to go around the entire circumfrance of the umbrella, onto which the tab top curtains are threaded. If you didnt want to use tabl top curtains you could use sheer fabric and just safety pin it around the outside. Complete the look with the directors chairs, a pot plants and you can sit back and relax in you backyard and enjoy a cool drink out of the sun, while the sheer curtains waff in the summer breeze.
