a glamorous transformation

This month the boys from insideout have given this inner-city apartment some modern finesse befitting its waterfront location.

This million-dollar apartment in one of Cairns's landmark buildings was bland and lacking personality. Design and layout-wise the apartment was excellent, it just didn't reflect the personality of the owners. So, the first thing to do was to add some warmth. Different colours were chosen for the walls. For example, the master bedroom was given a richer look with a dark grey metallic feature wall. Classier lighting, such as the pendant lights overhanging the kitchen bench, were installed throughout. The entry hall was turned into a gallery with metallic black panels framing family photos. Simple moth orchids and sleek side tables ensure a wow factor upon entry. The modern kitchen was designed to appeal to a broad range of tastes, but Pacific Kitchens gave it a brilliant, funky look by teaming warm grey cabinetry with the existing black granite benchtops. Sleek, stylish furniture reflecting the new colour scheme, luxurious fabrics and interesting textures such as a zebra skin rug complete the look. The end result is an apartment that looks good in tropical Cairns or cutting-edge Manhattan.

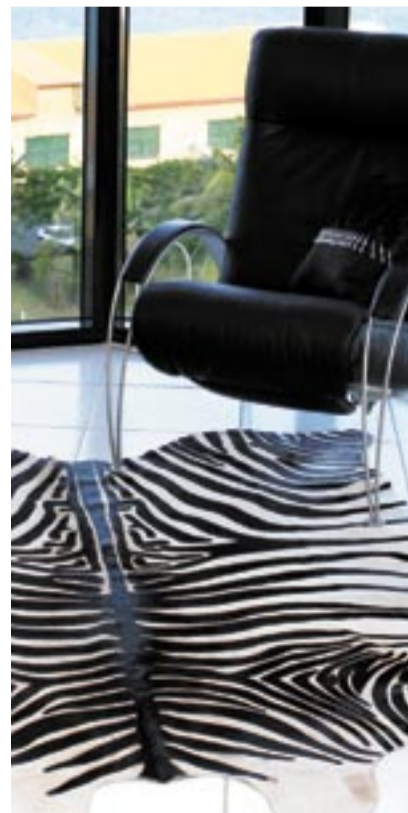

The kitchen was given a more upmarket look by changing the neutral cabinetry to funky warm grey tones.

A dark grey metallic feature wall gave the master bedroom more warmth, while a large custom-made mirror was designed to make the room feel grand and to reflect the million dollar views. Sophisticated bedding and a silk bed runner complete the look.

east meets west

stunning asian fusion

Hi I'm Jenny Wall. Welcome to a preview of my 'boutique' showroom, located in Stratford, Cairns. We are featuring just a few of our extensive range of individual and unique pieces which I handpick on my various buying trips. The stunning daybed is an original dutch bed from Central Java, impact is the word for the large Buddah canvas and a total one off is the large orange Shanxi Buffet. Our variety in wall plaques has been increased with the large metal wall hangings from Vietnam (ask for the small ones also). Romance is the word for our lovely bedroom setting, using original old doors from china and a modern chandelier. Fitting out a house, apartment or just looking for that special piece. Blue Moon is a must to see, I invite you to come and browse.
